My dear sir,

Do you happen to know Dr. Lawson Tait's address. I am awkwardly situated. I received from him a fortnight since a very kind invitation, & as I supposed just his letter with others to take with me here (Brighton) – but ~~[illegible]~~ not in some way it has disappeared & as I had not noted the address

DSI

I am unable to reply to it.

A line mentioning his address (if you know it) would much oblige me —

Very truly yours,

B. A. Procter
